

Forum - INNOVISTA

Innovista is not just a virtual space, it is a dynamic hub for innovation, collaboration, and knowledge exchange. We promote the holistic development of students by urging them to enhance not only their academic performance but also cultivate essential skills such as effective communication, technical proficiency, and active participation in extracurricular activities under the forum. The various activities like Programming Contests, Technical/cultural fests, Paper Presentations, Quizzes, Seminars, Sports and Cultural competitions etc are organized under the forum.
